Professional Experience

Quiggy Pixels Huron, SD 2008 - Present
Lead Developer, Co-Founder

Built custom websites for clients using the Drupal Content Management System. Created custom Drupal themes based on design mockups and site wireframes. Worked closely with clients to provide a complete solution for their website.

Recent Achievements:

- Wrote a custom module for Warner Bros Records which parses their custom xml tour feed, allowing them to easily and automatically update tour information on their Drupal-based sites without having to alter their internal tour date mechanism. Module is currently in active development, soon to be contributed to drupal.org

MarketPointe Realty Advisors San Diego, CA 2007 - 2008
Web Designer / Developer

Provided web design and development services as well as general computer support to internal associates. Designed and built several websites as needed, including a full update to their primary website to improve SEO, an internal network website to allow field workers and other associates to access information on various land development projects, and a secondary version of the site which used the same data but was customized to meet their clients' specific needs.

Office Necessities Huron, SD 2006 - 2007
Web Designer / Developer

Provided web design and development services for several local businesses. Involved in all aspects of the site design process including initial design and structure, development, and final launch. Worked closely with photographers and other graphic designers on several projects to effectively represent the client's online image.

Self Employed 1998 - 2006
Web Designer / Developer

Provided various web design and development services for clients throughout the Midwest. Used available technologies to complete projects on time and on budget. Rebuilt several static websites using PHP and MySQL allowing clients to take advantage of the more dynamic web.
